

Name: _____ Per: _____

Endocrine System Notes

Endocrine glands:

Endocrine gland vs. Exocrine gland:

Hormones:

Functions of the Endocrine System:

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.

Endocrine system helps maintain homeostasis by:

Hormone secretion is regulated by:

Negative feedback =

Positive feedback =

Three types of action stimuli for hormone secretion:

1. Hormonal =

2. Neural =

3. Humoral =

Pituitary Gland

Anterior Lobe Hormones:

Intermediate Lobe:

Posterior Lobe Hormones:

Thyroid Glands

Parathyroid Glands

Thymus Gland

Adrenal Glands

Adrenal cortex:

Adrenal medulla:

Gonads

Hormones:

Pancreas

Pineal Gland
