

## **Typhoid Mary**

### **The Most Dangerous Woman in America**

1. What is typhoid fever?
2. How does typhoid fever spread?
3. What is a "healthy carrier"?
4. How does epidemiologist George Soper track down and first contacted Mallon?
5. Why did Mary Mallon get quarantined at Riverside Hospital on North Brother Island against her will?
6. Why did Mary have to go back to North Brother Island?
7. On another piece of paper, please write what you think about what happened to Mary. Was it right? Why, or why not?
